HELEN STOKES GIVES HER SIDE OF THE STORY

**Calls All Her Husband's
Charges False.**

(Continued from first page.)

a girl—just romping around with family friends, and that applies also to the one she shows me in an innocent posture on the beach with Edgar T. Wallace. The picture was snapped by my mother. I have never met Ted Rickard.

Photo of Electric.

And then came the letter references to the famous electric picture—supposedly "Mrs. Stokes in front of the Everleigh club in an electric automobile given her by Clarence McCornick."

Again the original negatives were produced. They showed the Elwood family home in Denver in the background. Views taken at the same time showed Mrs. Stokes' brother and sister, Victor and Marcella—both children then.

"Certainly the pictures are of me," she exclaimed. "Why should I deny pictures taken in my own home? McCornick? I never heard of him."

In connection with the picture of "the mulatto baby," Stokes' letters indicated that she had bought "expensive silk pajamas at \$35 a pair at Kasel & Kasel for Dan Jackson."

"I never heard of Dan Jackson except that Mr. Erbstein tells me he is a colored political boss and—not exactly respectable," she explained.

The Other Charges.

And so on through the charges—that she was the real co-respondent named by Mrs. Jack de Saulea, the Brazilian woman who later shot her Yale football star husband; that she associated with Jack Johnson; that she once married Stanley Joyce; that she was present when Marshall Field Jr. was shot; that Hal Billie, co-respondent named by her husband, was implicated in the Leighton Mount death; that she was intimate with the New York Alsatian group; that she had been in the "chair picture" was made by Tobin, Everleigh club milliner.

"The hat was bought from Joselin's, in Denver," she said. "I never had anything to do with De Saulea—I never even knew the other, except Billie."

"Hal Billie is a boy—many years younger than I. He was like my little brother, but any one who says I gave him money or was more than a sister

to him!" And for the first time the frankness merged into anger.

Why She Said So.

"Mr. Stokes says I ruined his son, W. E. D. Stokes Jr. All I ever did to ruin 'Weddle' was to care for him when he was ill; to see that his favorite dishes were cooked for his meals. In return he signs a statement that I was intimate with him. He was paid to do it, and that is why I have used him for snapper."

"Stokes even had a person swear that 'Weddle' had said that I looked him in a closet three days to force him to do it, and that is why I have used him for snapper."

"I want no money from 'Weddle.' I want my name cleared. I want only my legal financial rights from his father, and I want them only for my children. Above all, I want a clean name for my children."

How She Met Stokes.

"Stokes deceived me from the start. He forced an introduction by insisting on one through friends of mine I was visiting in his New York hotel—Mrs. Wilbur Hendryx. He begged me daily, telephoning half a dozen times and insisting that I be in his company."

stantly. He said he couldn't marry me publicly because of business deals—that his associates would think he was frivolous.

"We eloped, and I learned he had lied. From the start married life with him was terrible. Our babies came, and I stayed because of them. But for the children I would have left him long before and without asking a cent. But for them I would forget that you are a man and tell you the degradation this man sought to force on me while we were married—but everything I say against him is said against the father of James and Muriel—my children."

Protects Her Children.

"I hate him—but I try to restrain myself. Sometimes when I read what he says I want to run out on the streets and tell the truth about him—but I have kept some of the things back because of the children. Why, when he eloped he even kept back the telegram I wanted to send my mother. He had me spied on through all our married life. And when he finally tried to drag me to his own level, he said I could either do as he wished or take the consequences. The consequences are his charges."

A Note of Welcome

*To the Merchants Visiting the
Convention of the National
Association of Retail Clothiers*

FROM clothing merchants in all parts of America we have received requests for fuller details regarding the "New Order of Things" which has now been made a reality in our clothing department. We shall consider it a high privilege, therefore, to welcome all attending this convention at our stores, that they may examine the "all-exclusive" "Stratford Clothes"—America's finest, shown here. They represent a new quality standard, developed by Messrs. Cohn Rissman & Company, who have given us invaluable co-operation, leading to the fulfillment of our cherished ideal.

We would emphasize the strict accuracy with which we use the word "exclusive"—not as a mere figure of speech—a "free-for-all adjective"—meaning anything, and therefore nothing, but as applied to restricted patterns especially created and styles sold by us exclusively and impossible to find elsewhere in Chicago.

None will appreciate more fully than you the magnitude of this undertaking, which involved fundamental changes within this industry and the establishment of standards never reached before. You will therefore examine our stocks with an expert and sympathetic understanding of the effort and risk that this accomplishment has meant. Whatever idea or note of inspiration you take away with you will add in abundant measure to the gratification we feel at the fulfillment of our purpose.

MINE COLLAPSE ENTOMBS FORTY BRITISH MINERS

(Chicago Tribune Foreign News Service.)
LONDON, Sept. 25. — (Tribune Radio.)—At least forty miners are believed to have lost their lives in the worst British mine disaster since 1915. Owing to the collapse of a barrier between the mine and a disused pit on a higher level, millions of gallons of water rushed into the Redding colliery, near Falkirk, this morning.

Between sixty and seventy men on the night shift were still at work and were caught by the flood. Nine escaped, and hours later rescuers reached twelve more through the disused shaft, nearly a mile away. It is believed that all the others must be dead.

New Gentle Method
Banishes Every Line

No longer need you bear the tell-tale marks of weariness and advancing age. Tired lines, tiny crow's feet and deep-seated wrinkles can now be avoided. For a marvelous new cream has been discovered which gently smooths them all away. It is as if the skin had been touched by a magic wand, and made clear and youthful again.

This new discovery is called Domino Wrinkle Cream. It works differently from anything that has ever been tried before. When cream is applied to the skin, it immediately lifts out the wrinkles that they can be removed. Domino Wrinkle Cream is a new and wonderful discovery in the world of beauty. It is a new and wonderful discovery in the world of beauty. It is a new and wonderful discovery in the world of beauty.

SOFIA, Bulgaria, Sept. 25.—Small bands of Bulgarian communists are descending from the hills along the railway between here and Philippopolis. They attacked several stations, including Serambey, last night and succeeded in tearing up the tracks and cutting off traffic from Philippopolis for another day, making forty-eight hours' delay all told.
The regulars, owing to the lack of supplies, were unable to establish permanent patrols where necessary to protect communications against sporadic sallies of the bands, who are working in groups of a dozen or less. The communists also made progress in the north, maintaining a grip on Ferdinandovo, as well as declaring a republic in Varditsa. At Tarnovo, however, the peasants themselves arrested the agitators and turned them over to the authorities, according to an announcement here.

BEAUTY PARLOR BRIDE NOT FOR COMMON FARMER

Detroit, Mich., Sept. 25.—[Special.]—Ney J. Ford, Dearborn township farmer, was today granted a divorce from May B. Ford, at present in a hospital at Fort Wayne, Ind., by Judge Marschner.

In his opinion Judge Marschner severely criticized both husband and wife for their testimony. Ford won a cross bill filed shortly after his wife filed her petition in August, 1922. He charged cruelty and misconduct. Judge Marschner held that cruelty had been proved but that misconduct had not.

into marriage. This Judge Marschner held was untrue. It was evident that he was seeking marriage, the judge said, from the letters which were written into the records of the case.

Judge Marschner added that Ford should have investigated the Toledo beauty parlor employee before he married her. It was a mistake, the judge said, to expect a beauty parlor girl to become a farmer. Ford, however, probably was right in his testimony that his wife sought to kill him, the opinion sets forth. In this connection the testimony of Detective Lieut. Edward Kunath and O. H. Straith, who said Mrs. Ford had sought to hire them as gunmen to kill Ford was cited.

Mrs. Ford, the judge decided, showed in her deposition an utter disrespect for law.

DAINTY REVOLVER OF GIRL BANDIT COSTS HIM \$34.50

A girl who drew a pearl handled revolver from her handbag as easily as she would a lipstick, yesterday robbed Earl Schriemp, 220 Locust street, taxi cab driver, of \$4.50, he told Sheffield avenue police. Not only that, but she "gipped" him out of a \$30 bill she had run up in a tour of the Chicago park system. "Drive on and don't let me see you turn around," were her final orders to Schriemp. He drove.

WOMAN ROBBED IN HOME.
Mrs. Charles Loeffler was held up in the hallway of her home at 3023 South Michigan avenue late yesterday afternoon by a lone robber, who escaped with her diamond ring, which she valued at \$200.

J. L. COCHRAN, ILL, DIVES SEVEN STORIES TO DEATH

Nurse Unable to Prevent Realtor's Plunge.

(Picture on back page.)

J. Lewis Cochran, president and treasurer of the real estate firm of Cochran & McCluer and founder of Edgewater, leaped to his death early yesterday morning from a window of his suite on the seventh floor of the Lake Shore Drive hotel, 131 Lake Shore drive.

Dependancy over an illness from which he had been suffering for more than a year was given as the probable motive for his act by his son, J. Lewis Cochran Jr., and his physician, Dr. Hugh Patrick.

Nurse Helpless to Save.
Mr. Cochran, his wife and younger son, L. V. Cochran, a student at

Princeton, returned from their summer home at Mackinac island only about a week ago and instead of returning to their home at 1415 Astor street moved into an apartment at the hotel.

Miss Eleanor Sheils, a trained nurse under whose care the patient had been kept constantly since his return, had stepped out of the room for a glass of water and was returning when she saw Mr. Cochran walk from his wheelchair to a window and raise the screen. She screamed and rushed towards him, but before she reached the window he had jumped through.

Native of California.
Mr. Cochran was 45 years old. He was born in Sacramento, Cal., March 23, 1877, and received his education in the Philadelphia schools and at Loyola academy in that city. He came to Chicago in 1884 and engaged in the real estate business.

Two years later he conceived the idea of founding a suburb on the northern edge of the city, purchased a tract of 350 acres along the lake shore, subdivided it and called it Edgewater.

As the district grew, Mr. Cochran promoted the Northwestern Elevated railroad and was its first president. He

was also a director of the Chicago Title and Trust company and a former president of the Edgewater Coal company.

Member of Several Clubs.

He served as president of the Badminton and Cycle club from 1909 to 1914 and was also a member of the Chicago University, Mid-Day, and Onwenta clubs.

Besides his widow, Mrs. Alice Vanuxem Cochran, he is survived by two sons. J. Lewis Cochran Jr., 1619 North Dearborn parkway, the elder son, who is a member of his father's firm, was confined to his home with chicken pox at the time of his father's death. The younger son left for Princeton a few days ago.

Funeral services will be held at 2:30 o'clock tomorrow afternoon at Grace-land chapel. Burial will be in Grace-land.

CERMAK WANTS SHOWDOWN FOR JUVENILE HOME

President Anton Cermak of the county board yesterday demanded a showdown on charges that delinquent children at the Juvenile Detention home have been neglected and abused by a system of management "appalling in its horror."

"And the showdown will come tomorrow," Mr. Cermak said. "If these charges are true, it is a matter for the grand jury. Any person guilty of such charges not only should be removed, but should go to jail. The board of visitors that made the charges has been summoned to appear in my office tomorrow, and I have notified the state attorney. If the members stand by their report, I will tell them to go before the grand jury. If they back up on it, I will tell them something else."

Denies Ignoring Report.
He denied that the report submitted to him and Judge Victor F. Arnold, soon by civil service appointment, Pres-

ident Cermak said. He intimated some of the employees would be replaced. "They were there when I came in," he said, "and if I had my way about it some of them would have gone before now."

Members of the visiting board will meet President Cermak at 11 o'clock today. Are: Mrs. Ira Couch Wood, Mrs. William S. Heffernan, Mrs. John V. Farwell, Dr. John A. Laro, M. J. Harp, and Dr. H. Douglas Singer.

The Juvenile home question was discussed yesterday by the Tuesday club in Mrs. Bemis' home, 1447 Kenmore avenue. Judge Hugo Park declared a big step in solving the question of the city's wards could be taken if the present Juvenile home, when abandoned, is taken over as a central detention station for all women prisoners temporarily detained in police stations or awaiting trial in the county jail.

Help First Duty, Judge Says.
"The disclosure came at an opportune time," said Judge Arnold, who praised the character and sincerity of purpose of the visiting board. "The duty of all of us is to help and serve these children. I have advocated that a juvenile court be established in the new home and that conditions as they exist today must be corrected before the new home is occupied."

The position of superintendent has recently been created and is to be filled soon by civil service appointment, Pres-

ident Cermak said. He intimated some of the employees would be replaced. "They were there when I came in," he said, "and if I had my way about it some of them would have gone before now."

"The disclosure came at an opportune time," said Judge Arnold, who praised the character and sincerity of purpose of the visiting board. "The duty of all of us is to help and serve these children. I have advocated that a juvenile court be established in the new home and that conditions as they exist today must be corrected before the new home is occupied."

The position of superintendent has recently been created and is to be filled soon by civil service appointment, Pres-

ident Cermak said. He intimated some of the employees would be replaced. "They were there when I came in," he said, "and if I had my way about it some of them would have gone before now."

Members of the visiting board will meet President Cermak at 11 o'clock today. Are: Mrs. Ira Couch Wood, Mrs. William S. Heffernan, Mrs. John V. Farwell, Dr. John A. Laro, M. J. Harp, and Dr. H. Douglas Singer.

The Juvenile home question was discussed yesterday by the Tuesday club in Mrs. Bemis' home, 1447 Kenmore avenue. Judge Hugo Park declared a big step in solving the question of the city's wards could be taken if the present Juvenile home, when abandoned, is taken over as a central detention station for all women prisoners temporarily detained in police stations or awaiting trial in the county jail.

**PRESSMEN POUR
INTO NEW YORK
FOR PAPER JOBS**

New York, Sept. 25.—Additional pressmen were distributed today among newspapers affected by the strike of members of the local pressmen's union, who left their posts a week ago.

That night, it was announced by officials of the International union, who have invited out of town members of their organization to fill the places of members of the outland local. They said others were arriving hourly from widely separated sections of the country.

Speakers for the Publishers' association, which signed an agreement under which the International was to

send the pressmen, announced that enough men had arrived, or were en route, to end the strike as far as the employees were concerned.

International union officials told of a steady stream of telegrams from other cities announcing departure of pressmen to fill the vacancies, and dissipating fears that the additional men requested would refuse to come to New York.

Your Coal Problem

STATEMENT NUMBER ONE

Protection and Service!

Your coal merchant is your neighbor and friend.

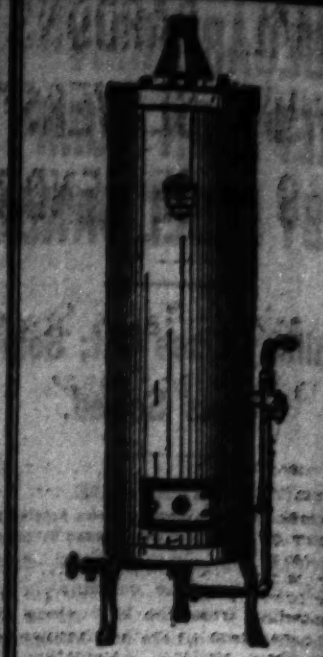

He is as necessary to your health, happiness and comfort as your grocer, butcher, or the corner druggist. He warms your home, keeps the indispensable hot water on tap, and turns the wheels of industry to make you prosperous.

Evidence of his ambition to serve you faithfully is shown by the emblem above. This emblem is used by an organization of reliable coal merchants who are associated with the object of maintaining a high standard of service to the public.

This emblem, therefore, becomes your safeguard—a guarantee of quality coal, full weight, and a helpful service that stands for more than the mere prompt delivery of fuel.

First be sure your coal merchant displays this emblem. Look for it on his wagons and his stationery. Then get better acquainted with him. His advice will frequently save you money through a more judicious selection of coal.

SMALL PARDONS "WHITE SLAVERS" AS CASE PENDING

Association Takes Steps
to Find Out Reason.

Arrested by Gov. Len Small's action in granting pardons to a man and his wife who were convicted of selling a country girl into "white slavery," but who were punished by a day's imprisonment, the Juvenile Protective Association has begun an investigation to ascertain what political influence may have operated in the shadows of the pardon.

Association of judges pointed out that the case was made more glaring because the pardons were granted while the Supreme court was engaged in the conviction of the couple.

In October, 1921, Minnie Oehrling came to Chicago from her country home at Monee, Ill. A few days later she was introduced to life in the vice courts of the city and placed in the hands of Harry Cusack, well known to the underworld, and his wife, Alma, who preferred to spell the family name "Cusack."

Minnie's father found her there a few days later. She had earned \$150 for herself, according to the "checks" she held, but the man she said was her "banker" disappeared with her money. This man, Joseph Costa, was not apprehended.

Cusack and wife were indicted and convicted. Judge Harry M. Fisher fixed the penalty at one year in the house of correction with fines of \$1,000 each. They appealed to the Appellate court, which sustained the conviction. Then they appealed to the Supreme court and the appeal was pending during the "trading days" when Gov. Small was seeking votes in the general assembly. One contention of the defense was that the girl admitted she was 18 years old when she was taken to the Roamer Inn.

Appeal to Pardon Board. Then came an application for pardon. It is said that "several persons" of political influence were interested in obtaining them. State Representative Lee O'Neill Brown of Ottawa appears as attorney of record in the pardon case. It was stated at Springfield. Another Democratic member of the house, Representative Thomas O'Grady of Chicago, appeared "unofficially," this name report states.

Characterizing the crime of which Cusack and his wife were convicted as "the most repulsive offense imaginable," Assistant State Attorney M. B. Williams asked Attorney General Brundage for an opinion in an effort

to devise means whereby "we can enforce the penalty against these criminals." If it is found that all legal avenues are closed, officials of the Juvenile Protective Association say they are determined to go farther than the cold technicalities of the law in setting this "issue."

Judge Fisher declines to discuss a case pending in the Supreme court, but it was learned, he refused to sign a letter to Gov. Small recommending the pardons.

Boys Draw Pontiac Terms; Parents Blame Late Hours. Two 17 year old boys, who confessed to burglaries which netted them \$17, were sentenced to a year each in Pontiac reformatory by Judge William E. McFarland in boys' court yesterday. They are Roman Wilora, 3333 Lester avenue, and Frank Paout, 2447 Greenview avenue, both of whom have police records. Their parents gave fast company and late hours as the cause of the boys' delinquency.

JUSTICE CARTER ORDERS STAY OF NITTI HANGINGS

Attorneys representing Mrs. Sabella Nitti Crudelle and her husband, Peter Crudelle, condemned to be hanged for the murder of the woman's first husband, Frank Nitti, won the first legal battle to save the lives of their two Italian peasant clients yesterday. A writ of superadeas staying the execution was granted by Supreme Court Justice Orrin Carter.

The order of Justice Carter automatically suspends the death penalty set on the heads of the couple by Judge Joseph B. David several months ago, until the State Supreme court reviews the proceedings of the lower court. The date of the execution was set for Oct. 13—Columbus day.

REPORTS LOSS OF DIAMOND. Mrs. Carl F. Farnham, 5377 Street avenue, reported the theft of her diamond ring valued at \$1,000 to the police last night.

INDIANS CHARGE RACE PERISHES BY OFFICIAL NEGLIGENCE

"The American people do not know the tragedy of the Indian situation. For years the Indian question has been a political football and unless reform is accomplished within the bureau of Indian Affairs at Washington there will soon be no Indians left. We have come to Chicago to try to reach the hearts of the American people with the importance of our message."

So declared Thomas L. Sloan, president of the Society of American Indians, and himself an Omaha Indian. He called on County Judge Ed Quinn K. Jarocki yesterday afternoon to enlist his cooperation with the Indian program. A delegation of Indians was with him.

There will be a conference of the Indians at 10 a. m. today in the election commissioners' room in the city hall.

KERMANS

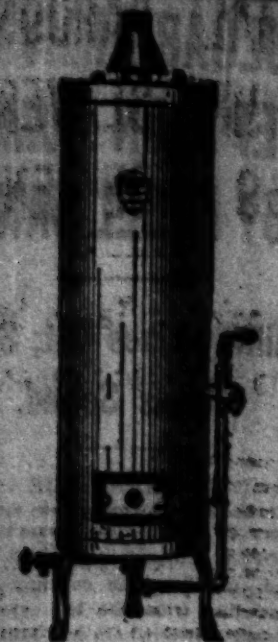

Urges you to go to
other stores FIRST

In one respect, at least, KERMANS is unlike any other store in America. We not only encourage "shop to shop" comparisons, but actually urge you to go to every other worth-while store first, and then come here.

See what the other stores have. Study their styles and prices, workmanship and materials. And then come to KERMANS. For only by making such careful comparisons can you find out how true it is that our apparel is "different" and prices low.

We know that is a bold suggestion to make—there probably is no other store in America that dares to make it. But remember KERMANS is unusual in many ways.

Another point of great interest to you, is the way we buy. Never do we "load up" with a big quantity of apparel which must be sold regardless of how fashions change. On the contrary, we are buying continually—every day, in fact—and only a few things at a time. So at KERMANS you are always sure of seeing something entirely new and right up-to-the-minute in "correctness."

Mandel Brothers' Autumn Opening Exhibit

Autumn Opening Week Exhibit of Dinner frocks from Paris

—arrived on latest steamships

—exquisitely fashioned of flat crepe, or fulgurante satin, in a wide choice of brilliant colors (the rage in Paris), and in black and white.

Autumn opening features at \$65

Crystal bead embroidery in artistic designs lends charm. Models for formal and semi-formal occasions; sizes for women and misses. Two typically appealing styles are illustrated in the sketch above.

In the Palmetto Shop: Imported knitted dresses for golf and other sports

Modishly and carefully tailored, they are both snappy and practical for your favorite hobby.

A tailored knitted dress.

37.50

is fashioned of silk and wool and designed with jacquard skirt, new roll collar and vestee, and to be had in desired fall sports shades.

A jacquard knitted dress.

47.50

is made in coat effect, of silk and wool in allover jacquard design, with contrasting long roll collar and cuffs of fiber silk; in the wanted colors. Sketched.

Autumn Opening Week Exhibit of Women's ultra smart coats

exquisitely fur trimmed

Coats featured by rich, deep-pile, velvet-like fabrics, lavish trims of fur, and new silhouettes in circular flounces, flares and tiers.

The models pictured are \$150

Of fashions with Hudson seal is the model with flaring cuffs and tiered back. Swinging panel back, novel sleeves and beaver fur collar and cuffs distinguish the other model in roidelain, shown in the picture above.

Noteworthy features of "Opening Week": 'Superba' girdles and corsets for wear with the new-style frocks

Cleverly designed to give a slender, straight silhouette, these girdles and corsets are comfortable and supple for the woman of full proportions, as well as for average figures. A wide range of styles, 7.50 to \$39.

"Superba" corsets at 16.50

At left, elastic and fabric combination, topless in back, with slightly higher diaphragm section, designed for slender and average figures. Noteworthy values.

"Superba" step-ins at 14.50

At center, Superba step-in, has no lacing or front steel, made of firm surgical elastic, slightly boned in front and back, giving uncorseted effect, assuring straight, long lines.

"Superba" corsets at 27.50

Model at right for tall, stout and average figures: splendidly made of pink silk broche and firm silk elastic; sizes to 36 are priced at 27.50. Sizes 37 to 44 at 29.50.

"Opening Week" attractions of moment: Chapeaux with a French lilt

In our French millinery salons are reproductions of recent imports—so true to the original that you scarcely can distinguish between the two.

\$15—\$18—\$20

Turbans, new in line; the cloche, more becoming than ever; tams that crush adorably; the short-back poke; felts that are rather dressy; velvets, soft and rich; velours. Brilliant fabrics, burnt ostrich and ribbon provide novel adornment. Black and autumn shades. The distinctly novel poke hat, sketched above, is available in varied color combinations.

Unusual values for "Opening Week": 150 imported beaded bags

—draw-style 12.85 —hand-knitted

An unusually large selection: in light backgrounds, with floral patterns or dark backgrounds with conventional or floral patterns.

Savings range from one-third to half

All the bags are silk lined, all have a silk draw-cord, all are finished with a tassel. Three typically effective models are to be seen sketched above.

Full-fashioned silk hose, 1.55

Made of durable, pure thread silk, and with lisle garter top; in a wide assortment of wanted shades, including polo, otter, gray, log cabin, etc., also black. The values are decidedly uncommon.

Children's fall socks, cotton and lisle, 75c

Three-quarter length socks with fancy striped cuff; fine ribbed and drop stitch styles, in brown, gray, black, camel and other desirable shades.

Fur chokers for early fall

are fashion-noteworthy in the
Autumn Opening Week Exhibit

All the wanted furs are represented in our collections—a broadly comprehensive choice.

2-skin chokers of natural or blended baum marten at \$95

—choice large skins, perfectly matched and joined, in a new and pretty style.

Also other 1- and 2-skin chokers

of foxes in all colors, including natural blue and silver, natural mink or squirrel or fish, blended Jap sable, stone marten, Hudson Bay sable, and Russian sable.

Lounging robes of corduroy at 16.75

—with double shawl collar and cuffs, bound with grosgrain ribbon, in self color—fasten at the side with ribbon, and lined with sero silk.

Hand-made 2-piece sets at 8.75

Hand-drawn, hand-embroidered sets of voile in white, flesh, blue, peach, with contrasting color touches. The style illustrated.

"Superba" shoes for women

introduce new models in the
Autumn Opening Week Exhibit

"Superba" smartness of style is matched by excellence of construction in this widely favored footwear. Among the new styles the

Jenny Lind strap slippers —Mandel origination

—stand out as distinguished exemplars of "Superba" elegance and individuality.

In very smart combinations

of patent leather, with black suede trim; also brown satin. The air of dignity, the superiority of service, the spirit of courtesy, are distinctive characteristics of the shoe section.

Women's kid gauntlets —imported —strap-wrist at 3.25

Accurately cut, well made, perfect fitting gloves, with strap at wrist, and large cuffs; heavily embroidered backs; black, brown, beaver.

DEERST CRITIC.

Chicago, Sept. 25.—No doubt some of the disgruntled contributors to your department are influenced by the attitude "I know my own mind" when they so hastily vituperate our American people, Jack Dempsey.

One of the outstanding pieces of abuse received in your column appeared Sept. 15, signed "J. Howell," wherein this productive business man and no less ex-soldier of some war or other, says "what the hell a business man cares about Dempsey, etc." and on in the most insulting and insulting fashion to criticize Jack's war record. This letter had all the earmarks of a piece of business who was too busy for military service in our late war, probably young enough during some war to build up a "productive business."

Why in the name of common sense is prejudice exist against one of our greatest, and greatest of athletes that the last half century has seen? It's true he did not risk his life in condition to the ravages of war, but certainly he did not definitely evade any military service. At it is to be apparent that the government was nothing of it. R. J. McGowan.

THE H. C. L. COMMITTEE. Chicago, Sept. 25.—In today's "Voice of the People," one Francis C. McArthur, (editor of the city hall H. C. L. Committee) is the rotting potatoes in the city.

Who is this person who dares to speak the soft slanders of a "rotting potato" of a city? Let me tell you, M. that in many moons they've been in, I think, trying to lower on a sandwich (I forget which one) downtown; they've tried to get prices reduced (first, don't they've tried to add their price to some dollars from economic charges, and tried to do something else or lower the price of cream sodas; 14 cent milk, they've tried to 12 cents in this city. I don't know.

When trying to choose between two evils. Chicago, Sept. 25.—I know that you like a politician who may be considered liberal, but are you going to allow the state of Illinois to take a stand in favor of mob rule? The governor is fighting his state from domination by a mob of thugs, and if you help the state, then I am afraid you will be not helping to destroy the republican government but will be ensuring the reputation of your state as an advocate of Americanism. The latter does not come from a Catholic, Jew, nor a Negro, but from a white man, a member of the Methodist Episcopal Church South, a veteran of the war. Incidentally I have also volunteered my services to Gov. Walton, the National Guard or in any way he may like. KENNETH L. HENDRICK.

NEW IMMIGRANT BILL WOULD LET IN 4 PER CENT

Half of Them to Be Blood Relatives.

Washington, D. C., Sept. 25.—(Special.)—A new immigration law which would authorize the admission of 2 per cent of each national group of aliens to the United States in 1930, when the census was taken, is now being pushed out by Representative Albert Johnson, chairman of the house immigration committee, and James Davis, secretary of labor, and will be introduced in the next congress.

In addition to the 2 per cent allowed on the basis of blood relatives of persons already here will be admitted if the bill goes through congress. Under the bill it is believed that the quota from Russia and a few other countries would be sharply cut, but that on the other hand immigration from the north European countries would be increased.

Will Expedite Admission.

One feature of the bill provides that questionnaires, furnished by American consuls abroad and filled in by prospective immigrants, will serve as a basis for determining whether or not the alien will receive a quota certificate enabling him to travel to the United States on any ship within six months. If he can pass the physical and other tests at the American immigration stations he will then be admitted.

May Revise Naturalization.

In order to perfect a system of selective immigration Representative Johnson advocates placing American health officers and immigration inspectors on board American vessels so the necessary examinations can be carried on before the voyage. This idea may not be in consonance with existing treaties, and if this is true, it will be abandoned.

The bill will also demand a record of the naturalization laws, Chinese exclusion act, immigration laws, and other statutes pertaining to the subject of immigration.

Both Secretary Davis and Mr. Johnson are absolutely against any attempt to lower general immigration restrictions.

ADER'S BROTHER SEIZED AS LINK IN ESCAPE "PLOT"

William F. Ader, from whose office Attorney Edward J. Ader, his brother, former secretary of the defunct Consumers Packing company, made his escape while in custody of Leo Wals, a Leavenworth prison guard, was arrested yesterday in the Federal building as a warrant charging conspiracy to effect the escape.

Miss Goldie Skolnick, Edward Ader's former secretary, who is under indictment on the same charges, surrendered to Marshal Robert R. Levy and was placed under \$5,000 bond.

William Ader was arrested immediately after he had appeared before Judge Wilkerson to testify regarding an alleged assignment of \$50,000 said to have been made by his fugitive brother. Mrs. Edward Ader, former wife of the missing attorney, testified he owned her \$50,000 at the time he was sentenced to seven years in Leavenworth.

NEW DICTATOR LIFTS SPAIN OUT OF GRAFT, CRIME

Cuts Living Costs, Kills
Bandits, Wins Public.

BULLETIN.

MELILLA, Morocco, Sept. 25.—Spanish forces resumed operations against the Moroccan rebels yesterday, shelling several enemy concentrations. The new government in Madrid has ordered preparations for strong operations against the Moors under Abdel Krim.

BY RAYMOND FENDRICK.
(Chicago Tribune Staff Writer.)
(Copyright, 1923, by The Chicago Tribune.)
MADRID, Sept. 25.—(Tribune Radio.)—In less than two weeks the new military dictatorship in Spain has become a tremendous success. It has done an outstanding achievement in its credit already:

1. Reduced cost of living.
2. Ousted 7,000 grafting politicians.
3. Dismissed thousands of superfluous government employees.
4. Stopped banditry by court martialing and executing bandits on the spot.
5. Abolished syndicalism and terrorism.
6. Established public confidence in government.

50 Years in Few Days.
All the governments of Spain for fifty years have not accomplished as much for the Spanish people as President Primo Rivera and his directors of nine generals has accomplished in a few days.

On the other side of the picture—martial law, disappearance of jury trial, dissolution of parliament and degradation of public officials throughout the country—an overwhelming public opinion considers the benefits under the new regime far outweigh any disadvantages. It will be many years before any normal government in Spain will dare undo the present governing reforms.

President Rivera discovered that 40 or 75 per cent of the government employees never even appeared in their offices. He is discharging them as fast as possible. He has also found proof that many old ministers pocketed almost half of the appropriations for their ministries.

Peasants Value Advances.
The peasants sharply advanced on the Madrid bourse this afternoon. The advance was the direct result of a meeting Saturday of the directorate, which decided that heroic measures must be taken to put the peasants and Spain's finances in a better position.

HINT WISCONSIN BORGIA POISONED HER OWN MOTHER

Widow Shown Mistress
of Fatal Drugs.

Elkhorn, Wis., Sept. 25.—(Special.)—Behind locked doors at the Elkhorn county jail here, Mrs. Myrtle Schaud, 35 year old White-water widow, was arraigned Tuesday for the attempted poisoning of her second child, after her confession that she had administered poison candy to her four children and that the death of her husband, Edward, eighteen months ago, was also caused by poison.

District Attorney Godfrey says that another charge may be lodged against her due to the suspicious circumstances under which Mrs. Henry Coad, her mother, died at approximately the same time as Mr. Schaud. It is alleged the widow admitted her mother had died from strychnine.

Ernest Kufahl, Watertown, disabled world war veteran and former boarder at the home of Mrs. Schaud, who had been mentioned as the sweetheart of the poison widow, today denied that he had ever been more than a friend to the woman's husband and that he was not the woman's husband had been murdered.

Mrs. Schaud was first suspected after having given poison candy to her four children before they were to go on an auto ride. When the children threw the candy away because of its bitter taste she endeavored to save her oldest son who had swallowed most of the piece given him. She stated that she had tried to save her son, believing that if all four children did not die none of them should.

Divorce, \$2,000 Alimony for Rich Doctor's Wife

Mrs. Maud E. Pitts, 401 Davis street, Evanston, yesterday won a divorce, \$2,000 annual alimony, and full title to her \$48,000 home from Dr. George W. Pitts, wealthy physician. Judge Sabath granted the decree on charges of desertion and also granted to Mrs. Pitts custody of the two children, Robert, 15, and George, 12, for whose support Dr. Pitts was ordered to pay \$100 a month.

Judge John J. Sullivan granted a divorce to Mrs. Anita Child, an actress in the play, "The Clinging Vine."

HUMAN BLUNDER WRECKED SHIPS, WITNESS ADMITS

San Diego, Cal., Sept. 25.—(By the Associated Press.)—An error in judgment caused the wreck of seven destroyers of the Delphy class, on Sept. 8, according to Lieutenant Commander Donald H. Hunter, commanding officer of the U. S. S. Delphy, which was leading the column.

That it was an error in judgment and not an act of Providence that hurled the ships to destruction and twenty-three men to their death was admitted by the Delphy's chief today before the naval court of inquiry.

Lieutenant Commander Hunter, cited "as contributory causes the unusual northerly current we encountered near Point Arguello and the fact that a bilateral radio compass is used there were partly responsible."

"I think there is also a possibility that abnormal currents caused by the Japanese earthquake might have been another contributory cause, or magnetic disturbances connected with the solar eclipse affecting the compass."

That the Delphy was not the only ship in the squadron whose navigators were deceived by the presence of a northerly current at the time of the year when they expected a southerly current was brought out in the testimony of Commander William H. Toza, who was commanding the U. S. S. P. Lee, just astern of the Delphy.

The GREAT AMERICAN DRINK

Those who live in Portland, Maine, may drink a brand of coffee that has a local sale. Those who live in Portland, Oregon, may never have heard of it. In Springfield, Massachusetts, a locally sold coffee may be somewhat popular. In Springfield, Illinois, it is unknown. Citizens of St. Joseph, Michigan, may drink a blend that is in fair demand that locality. To the folks of St. Joseph, Missouri, it means nothing.

BUT—go anywhere in this good old U. S. A. and say "CHASE & SANBORN'S SEAL BRAND," and everyone in that town who knows drinking coffee will say, "That's the lodge I belong to."

To the Man
Who Hesitates to
Use Polish on His Car

READ what Wm. J. Mezger, Rochester, N. Y., writes: "Having purchased an auto this spring I was cautioned about using any patent polish or liquid on the body and was told that it would spoil the finish."

"I used only water and as the finish became rather dull had fully decided to have it varnished, but before doing so I thought I would try a polish as I did not believe I could do it any harm before it was to be revarnished."

"We have been using

LIQUID VENEER

in the house for some time on the furniture so I thought I would give it a trial and after going over the car the result rather surprised me, as it looks fully as good as it did when purchased, and it certainly saved me the price of a coat or two of varnish and cheated the painter out of a job.

"I wish to state that this letter comes unsolicited but so many people have had the finish on their cars ruined by using polish that they are rather skeptical about using it, but I do not hesitate to say that it does all and more than you claim."

MORRIS & CO PENSIONERS TO PROTECT

Twenty-two pensioners on Morris & Co. declaring that they will be cut off within a week of the acquisition of the packing firm by Armour yesterday brought suit to protect their pension fund and to compel the company to pay them the full amount of their claims.

The bill, filed by Attorney Armstrong, charges that the company wilfully failed to pay a continuation of the pension fund, established in which each employee was to pay 1 per cent of his salary.

It is contended that the pension fund is in reality a trust of the company and that Armour & Co. is liable for full payment of the claims.

Numerous charges of fraud against the pension fund were made in July, 1923, the pension fund about \$1,000,000 and that some employees not yet eligible have been paid back \$1,000,000.

MORRIS & CO.'S PENSIONERS SUE TO PROTECT FUND

Twenty-two pensioned employees of Morris & Co., declaring that their pension will be cut off within a year as a result of the acquisition last spring of the packing firm by Armour & Co., yesterday brought suit to protect the pension fund and to compel a guarantee that pensioners will get full payment of their claims.

The bill filed by Attorney C. W. Armstrong, charges that the merged companies wilfully failed to provide for continuation of the Morris & Co. pension fund, established in 1909, into which each employee was required to pay 1 per cent of his salary.

It is contended that the pensioners are in reality creditors of the company and that Armour & Co. should be held liable for full payment of all pensioners' claims.

Numerous charges of fraud and conspiracy are made. The bill claims that in July, 1922, the pension fund was about \$1,000,000 and that since then some employees not yet eligible to pension have been paid back \$700,000. It

is contended this payment was illegal and made to prevent the employees from becoming dissatisfied.

The bill asks for an accounting of every phase of the merger and the pension fund. It is set forth that \$7,000,000 would be necessary to pay all claims.

White Issues Statement.

"There is no reason why we should be made party to the suit brought by former Morris employees," declares a statement issued last night by F. Nelson White, president of Armour & Co. "When we purchased the assets of the Morris company the bill of sale specifically provided that we should have no responsibility in the matter of the Morris pension fund."

SURFACE LINES

REJECT STRIKERS' MEDIATION PLAN

Chicago Surface Lines officials have rejected an arbitration proposal submitted last Saturday by Samuel P. Luzzo, head of the company's 1,300 truck laborers, who have been on a wage strike three weeks. It was unofficially reported last night. This information was received by Luzzo, who, at the time of the walkout, refused to join in the mediation proceedings instituted by Mayor Dever and subscribed to by the surface lines' 1,300 skilled mechanics. The truckmen, who now receive a minimum of 54 cents an hour, asked for an increase of 25 cents an hour.

VOTE OF PERSIA HALTS PLAN TO DILUTE ARTICLE X.

(Chicago Tribune Foreign News Service.)

GENEVA, Switzerland, Sept. 25.—Persia smothered an interpretative resolution on article 10 of the covenant in the league of nations assembly today after thirteen other states expressed weakening of this portion of the covenant consented to refrain from voting. A unanimous vote is necessary for the adoption of any interpretative resolution or amendment. The resolution was supported by twenty-nine states. The Persian representative declared

he could not abstain under his present instructions, but must vote against the measure, and the delegate from Canada, Sir Lomer Gouin, who has fought three years to amend the article, refused to postpone the question three days while the Persian asked for new instructions.

The resolution sought to permit each state to fulfill its duty in extending armed aid to other nations as it saw fit, when urged to act by the league. The assembly is rushing its work in hope of adjourning next Saturday.

Thrill After Thrill

SOMETHING NEW, SOMETHING strange, with a wild charm, as though it had come from another world to show you how to love life and live love. Nothing like it before—nothing like it again—ever!

Some miracle-power has crept into it to send throb-trembles through your heart. You will remember it all and you will remember it always. It teaches you at last what the word "thrill" means. It writes a new definition of "love." It is

"The Merry-Go-Round"

NEVER HAVE ROOSEVELT audiences been so lost in the screen,—so aghast at a story,—and Roosevelt audiences are accustomed to swift, intense drama!

People come away from it as though they had been for a month on the mountain tops or by the sea,—their heels hit the pavement a new way,—their eyes are starry,—their hearts have melted. Not the marvelous size and beauty of the settings, not the vivid and raging license of aristocrat carnivals have done this (unforgettable though they are); it is, instead, the simple, overwhelming love story of a reckless, modern Don Juan and a brave little virgin of the streets—and of how she won them both happiness.

A Love Epic Unrivaled in Drama

A Drama Unrivaled in Power

Never before have critics tossed their caps so high over the windmills.

Mae Tinee said in The Tribune:

"Just one thrill after another. Just one bit of magnificent pantomime after another. The entire film is just that. Most certainly 'The Merry-Go-Round' is romantic, fascinating, striking, human and marvelously well done from all points of view."

Virginia Dale said in The Journal:

"'The Merry-Go-Round' is a vivid, impressive photoplay, with something of the quality that makes a great book great. There never seemed a love so unreasonable and therefore so full of charm as here."

Genevieve Harris in The Post said:

"Its episodes are unusual, picturesque, dramatic; they unite to form a curiously fascinating picture."

"The Merry-Go-Round"

is played by a superlative cast, including

Mary Philbin and Norman Kerry

George Hackathorne, George Seigmann and Cesare Gravina

'DOKEYS' TO STAR TODAY IN STATE K. P. PROGRAM

A stirring address of welcome by R. Allen Stephens, retiring grand chancellor, and the election of officers featured the opening session yesterday of the fifty-third annual convention of the grand lodges of the Knights of Pythias at the Lexington hotel.

Hundreds of prominent Pythians from all over Illinois were present at the opening of the convention, which continues through tomorrow. During the day other hundreds of women began pouring into the city from every point in the state to attend the convention of the women's auxiliary organization of the order, which begins this morning at the Auditorium hotel.

New Officers Elected.
Following are the new officers for the coming year: Grand Chancellor, William H. Moore, Peoria; vice grand chancellor, Pence B. Orr, Joliet; grand master, James E. Durringer, Bushnell; grand treasurer, George W. Bushnell; grand secretary, Charles W. Bushnell; grand master at arms, Daniel H. Ross, Benton; grand inner guard, Algonquin R. Weeks, Champaign; grand outer guard, Judge Perry L. Persons, Waukegan; grand trustee, Eugene S. Giddington, Tarda (reflected).

Hold Reception on West Side.
At Guyon's Paradise last night the Pythians were guests of the West Town chamber of commerce.

Today will be "Dokey day" with the Pythians. The festivities begin with competitive drill exercises in Grant park at 12:30 p. m. In the evening the Pythian host will parade down Michigan avenue and thence to a west side ball to attend wrestling matches featuring Jimmy Meyers and Charles Cutler. On Thursday installation of officers will take place at the Lexington hotel.

WIDMAN, 66, WITH BIG ROLL, LIVES WAY.
Mrs. Ophelia Dane, 66 years old, who came here from Kansas City yesterday with \$2,000 in her handbag, forgot the address of her son, August Dane. Finding her wandering child about, she was helped to her home at 807 Garfield place.

tion and prevent subsequent exposures which will show the inner workings of this un-American mob organization known as the Ku Klux Klan.

Calls Session Unlawful.
A meeting of the legislature of this state or any branch of it in extra session is unlawful and unauthorized by the constitution and the laws of this state. The only purpose of this unlawful assembly is to further complicate matters and give aid and comfort to the Klan. I will not permit this assembly in the capitol and the afternoon newspapers state that permission to use the federal courtroom

here for this meeting has been granted by Judge John H. Cottrill, judge of the western district of Oklahoma. "In view of the conditions existing in this state at this time and in the light of exposures already made and given to the American public I appeal to you in the name of the people of Oklahoma and true Americanism to use your good offices to prevent this unlawful assembly in any federal building in this state."

Gov. of Oklahoma.
J. C. Walton.

Was Solons' Last Hope.
Judge Cottrill has denied that he made any offer of his courtroom. The use of the federal building, however, has been the last hope and the definite plan of the legislators. They thought early this evening that they had arranged this. It is understood the custodian of the building must obtain permission from Washington.

Every member of the legislature, on

arriving in town today, was served with a formal notice forbidding him to join the proposed assembly tomorrow. Legislative headquarters at the Lexington hotel had a guard at the doors. Men from the governor's staff kept close watch of their movement. Col. Zach Mulhall, the governor's escort and guard, made his appearance at the legislative room in the hotel tonight. With his wide Stetson, white mustache, and six shooter, he created some excitement, but he merely smiled and said he had come to look the "boys" over.

Col. Mulhall said he noticed five or six "bad men" around town today. One gunman of that old western type is worth quite a few state militiamen. The town is filled with wild rumors. The newspapers are cautioning calm, yet urging the legislators to be firm and try to meet Gov. Walton's staff got out a four-page paper for free distribution. It is called the Record and Tribune.

is mostly a reprint of evidence that has been given of Ku Klux outrages before the military court and statements made by the governor. Aldrich Blake is named as editor.

"A Law Abiding State"
That Oklahoma is in the main a law abiding state is shown by the fact that they are obeying so meekly a handful of guardsmen, mostly boys. The cities of Tulsa and Oklahoma City are held in awe by such slender forces.

There is no movement of soldiers reported today, no actual mobilization of new forces. The "enemy" is invisible. Indeed; it is a one sided war.

The Ku Klux Klan is silent. The state fair is going on. The Rotary club is meeting and singing the battle hymn of the republic on the floor below military headquarters. Women's clubs are meeting.

Some of the women, wives of legislators, may march to the capitol tomorrow in protest against the governor's action. No news of an "uprising" or new threat of trouble lay behind the governor's remarkable order of last night.

promptly. One Tokyo silk plate dealer who doubled his profits, was today sentenced to three years imprisonment.

The Shinto, Buddhist and Christian churches have been invited to hold a joint memorial service on Oct. 19, which is the forty-ninth day following death, in accordance with the Buddhist practice. The ceremony will be held on the site of the army clothing factory at Tokyo, where 23,000 died.

Kobe harbor is congested with cargo for Yokohama. The warehouses are filled.

Return Silk to Yokohama.

The department of agriculture today decided to spend 100,000 yen (\$50,000) to reestablish the silk inspection bureau in Yokohama, completing the buildings by the end of October.

A special session of the diet will convene in the middle of November. The diet building is practically intact.

SILK TRADE NORMAL

BY CHARLES DAILLY.
(Chicago Tribune Staff Writer.)

Kobe, Sept. 25.—On Monday afternoon Tan Tazawa found business normal in Kyoto and other silk manufacturing centers, while the growing area, north of Fukuoka, already has shifted its business to Kobe. Although the raw prices are higher, this is regarded as temporary, owing to the crop outlook. The special bank is accommodating borrowers to as high as 100 yen (\$400) a loan, f. o. b. Yokohama, as well as in shipments are reported at Okatani station are reported at 2,300 bales. The Shinjima district is forwarding by rail to Shimizu, and thence by water to Yokohama. Water transport also is operating for Kyushu.

SILK INDUSTRY LITTLE HURT BY QUAKE IN JAPAN

"Japan, despite the earthquake disaster, this year will furnish the United States with practically the same amount of silk as in previous years."

T. Yoshida, Japanese consul in Chicago, yesterday told the Electric club at its first fall meeting in Hotel Morrison.

"Most of the districts in which the silk industry is carried on are outside of the devastated zone. The industry suffered only slightly from the earthquake, excepting for the manufacturing plants in Yokohama."

"Japan is coming back through her manufacturing and farming. About 5,000,000 Japanese are engaged in farming. The tea and coffee industries also are for the most part unharmed, and so are the fishery organizations."

CLOTHING UNION GIVES \$6,258 TO JAPANESE FUND

Officials of the Chicago joint board of the Amalgamated Clothing Workers have presented two checks totaling \$6,258 to the Japanese relief fund.

The contribution represented both the organization and its members, the organizing subscribers \$1,000 and the members through donations gave \$5,258.

Contributions of Chicago public school children totaled \$1,501. It was announced by Sup. Peter A. Morrison. A board rule prohibiting collection in schools was waived in order to permit pupils to contribute to the relief of Japanese school children.

NEVER have the styles of any one house earned such enthusiasm from the well-dressed masculine public, as the array of distinctive models put forth this season in "333" clothes.

NEVER has any one make so surely and brilliantly struck the dominant style notes of each new season, as "333" clothes. And this is the supreme achievement for a maker of fine clothes.

NEVER has any one make of clothes, at moderate prices, been available in so wide a range of exclusive fabrics as those to be found in "333" clothes under the name of

HUDDERSFIELD STRIPES

NEVER in the history of men's ready-to-wear clothes has so high a standard of tailoring been attained and maintained, as that which rules in "333" clothes.

"333" clothes are at your service for Fall and Winter—at the best shops in town. Ask for them—insist upon the label as proof of their genuineness. Phone us at Wabash 8628 if you don't know a convenient "333" clothier.

WALLACE THINKS HE'S HIT ON PLAN "TO AID FARMER"

Takes Commission Idea
Before Cabinet.

(BY A STAFF CORRESPONDENT.)
Washington, D. C., Sept. 25.—(Special.)—Establishment by the government of an agricultural export commission or corporation with broad powers was suggested by Secretary of Agriculture Wallace in a report to President Coolidge and the cabinet.

Secretary Wallace did not suggest details. He reiterated his opposition to arbitrary government price fixing of any crop, declaring that while it would afford temporary relief, it would eventually make conditions worse instead of better. He also expressed the opinion that while the buying and holding of a large part of the surplus wheat might be of temporary benefit, such action also would make conditions worse unless production of the crop could be controlled.

As part of the effort to stimulate export of wheat Secretary Wallace declared there should be a reduction of at least 25 per cent in freight rates, and contended that the entire structure of freight rates should be analyzed.

Grain Rates the Problem.
Members of the cabinet were skeptical as to whether the railroads would permit reduction of freight rates and a consequent cut in revenue. It was thought increases in other directions might be necessary to balance the losses in revenue resulting from such a decrease.

The question of reductions in rates on grain and grain products is before the interstate commerce commission in two cases. One is a plea by the Kansas public service commission asking for a reduction in the domestic rates on grain and grain products. The other case is the letter of Gray Silver, Washington representative of the American Farm Bureau federation, asking for a reduction of 25 per cent in rates on wheat and grain for export.

Oppose Higher Duty on Wheat.
It was indicated that President Coolidge and cabinet members were not impressed with the proposal of Representative Anderson of Minnesota for an increase in duty on wheat of from 10 to 45 cents per bushel. However, it is stated that the President desired the question to be thoroughly considered.

The administration was said to think it would not be good policy to increase the duty on wheat, inasmuch as the United States has a surplus for which it must find foreign markets. Attention was called to the fact that the spread between wheat prices in the United States and Canada recently was about 25 cents.

President Coolidge has asked Secretary of Agriculture Wallace, Secretary of Commerce Hoover, and Eugene Meyer, managing director of the War Finance Corporation, to attend the conference arranged at the White House by a committee of northwest bankers Tuesday. The committee proposes to urge legislation reestablishing the wheat corporation to buy and sell wheat.

COOLIDGE FAVORS U. S. SUPERVISION OF COAL INDUSTRY

Washington, D. C., Sept. 25.—(Special.)—President Coolidge expects to recommend to congress the enactment of legislation for government supervision of the coal industry, as contained in the final report of the coal commission.

The President, it was stated today at the White House, has given some

consideration to the coal commission's report and believes that its suggestions will be found to be helpful and wise. This opinion, it was explained, is based on only a casual reading of the report, the President not having had an opportunity to look into the recommendations in detail.

Storage of coal by large consumers will involve an expense of from 50 cents to \$1.50 a ton, according to estimates by the United States coal commission, in a special report on the storage problem made public today. The commission says the costs would range from 50 to 75 cents a ton when

\$5,000 tons or more are stored and from \$1 to \$1.50 a ton for the storage of a few hundred tons.

The commission strongly urges systematic and large scale storage of bituminous coal during summer months, declaring that through such action more can be accomplished than in any other way toward solving the coal problem.

FORD SILENT ON MUSCLE SHOALS; MYSTIFIES DIXIE

Washington, D. C., Sept. 25.—[Special.]—Henry Ford's apparent loss of interest in the acquisition of the government's water power plants at Muscle Shoals, Ala., has mystified champions of the long-pending Ford proposal to take over the properties with a view to development of a gigantic industrial center in the south.

Ford's failure to reply to the war department before the expiration of the time when the government had to act with reference to the disposition of the Gorgas steam plant and which resulted in the Alabama Light and Power company yesterday, is causing no end of speculation.

Dixie Congressmen Disappointed. In some quarters there is a feeling that Ford has abandoned all thought of going through any farther with his Muscle Shoals idea. Southern congressmen who had dreamed of a great big development by Ford's millions which would give impetus to southern industrial vitality are admittedly surprised by Ford's failure to come through with any modification of his original proposal in order to meet the complication which arose over the Gorgas plant. They are disappointed and some of them are in the failure even to reply to the government an

apparent lack of interest in the much discussed transaction on the part of the river king.

May Hurt Ford Politically. Developments that have now arisen may check the Ford presidential boom in the south and also among the farm organizations which has been looking to Ford to manufacture cheap fertilizer.

President Coolidge let it be known today that he does not regard the sale of the Gorgas plant as having any damaging effect upon the Muscle Shoals property transfer as Ford is concerned. The President believes that the project should be just as attractive to Ford if he wants it as it ever was.

as he does not consider the Gorgas steam plant as of any more importance to Muscle Shoals than "the stem to an apple after it is off the tree."

Alabama Senate Plans. Montgomery, Ala., Sept. 25.—The senate of the Alabama legislature this afternoon adopted a resolution urging Henry Ford to revise his offer for the Muscle Shoals Alabama project. The resolution held out hope that the Detroit manufacturer might yet purchase the nitrate plant at Muscle Shoals.

TAMMANY ECHO IS A SUBPENA FOR CROMWELL

Must Prove Graft Charge
Before Bankers.

New York, Sept. 25.—District Attorney Stanton today issued a subpoena to bring Seymour L. Cromwell, president of the New York Stock Exchange, to his office tomorrow to name the public officials whom he accused yesterday before the Bankers' association of threatening adverse legislation against the exchange unless their demands were met.

"I want to know who these men are," Stanton said.

Earlier in the day Mr. Cromwell had issued a statement declining to make public the names.

Instead of sending Mr. Cromwell a subpoena, Assistant District Attorney Pecora said he had issued a grand jury subpoena, which had been served late this afternoon, and that word had been received from Mr. Cromwell that he would appear at Mr. Stanton's office tomorrow morning.

LEGION NOTES

Harold A. Taylor Post, 131 West Chicago avenue, has two lost discharges which have been turned in this week. They bear the names of Louis G. Blair and Louis Taxman.

The Illinois Soldiers, Sailors, Marines club rooms, 17 Quincy street, to which the public is invited. The members of the society entertained the veterans at the Speedway hospital last Thursday night and presented each veteran with a useful gift.

of the federal reserve board the chairman of the board, the undersecretary of the treasury becoming an ex-officio member, instead of the secretary of the treasury.

Amendment providing that the major functions of the controller of currency shall be transferred to the federal reserve board, with a view to bringing about a simplification and uniform system of examinations and rulings.

HUSBAND SEES WIFE AND AUTO

Police of the detective bureau were called to search for Mrs. Jessie Walton, 24 years old, yesterday. According to her husband, J. J. Walton, she took their automobile Monday night, left her home at 2415 Ashland street, and has not been heard from since.

BROTHERS HELD IN LUNDGREN DEATH BLAME "MOON"

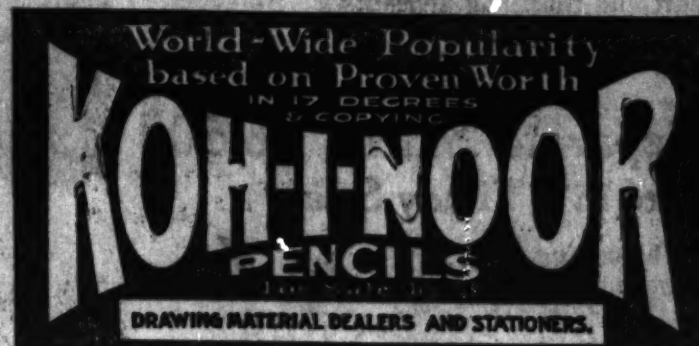

Herman and Theodore Spranger, brothers, living at 2605 N. Artesian avenue, the former an ex-policeman, were held in the grand jury on a charge of murder yesterday by a coroner's jury, acting in the death of Ernest Lundgren, Municipal court clerk in Deputy Coroner S. L. Davis' court at the county morgue.

Lundgren, who was a former amateur pool player, died in the county hospital Sunday from a skull fracture suffered in a fight with the Spranger brothers in front of a pool room at 1744 North Avenue. The defendants admitted the charge, but said they had been drinking "moonshine" whisky when they entered the pool room with four Lithuanian friends. They taunted Lundgren about his defeat in the pool game, this resulting in a fight on the sidewalk. Lundgren, witnesses said, had not been drinking.

SKULL FRACTURED IN FIGHT

Ernest Lundgren, living in the neighborhood of Roosevelt road and Johnson street, suffered a fractured skull yesterday when he fell down a flight of stairs.

A New Building Principle That Insures Comfort and Saves Fuel

How BALSAM-WOOL Bars Out Both Heat and Cold from
Your Home and Reduces Winter Coal Bills 1/4 to 1/2

DID YOU ever try sleeping in "a room under the roof" on an August night? And six months later pile on blankets to keep from freezing in the same room?

That was because the house was not insulated. The walls and roof let the heat in in the summer and allowed it to escape outward in the winter.

Modern home-builders are unwilling to put up with the defects and discomforts of the past. Science today offers a home far more comfortable and economical than our forefathers ever could know. A scientific principle is brought into use that is easily understood by everyone who understands the modern ice refrigerator and the fireless cooker. The fireless cooker cooks at half the cost for fuel. It keeps heat in by insulation. The refrigerator keeps heat out—by insulation.

Today people are insulating their homes against heat and cold with a new scientific product—BALSAM-WOOL. A blanket of this is placed within the walls of the house and underneath the roof—much as insulation is placed within the walls of the refrigerator and fireless cooker.

BALSAM-WOOL is a development of the Weyer-

haeuser scientific laboratories. It is made from pure wool fiber. It is light and fleecy like sheep's wool. And actual tests show that it is next to sheep's wool in efficiency as an insulator—the most efficient commercial house insulating material.

In summer it gives you comfortable sleeping chambers on any floor of the house. In winter it keeps the heat you pay for from wasting through the walls. It makes the home comfortable at slight cost. And since BALSAM-WOOL saves 1/4 to 1/2 of your coal bills, it pays for itself in 3 to 5 years.

BALSAM-WOOL also deadens sound—makes each room a zone of quietness.

The Weyerhaeuser mark of personal responsibility is on every roll—your assurance that it will do all that is claimed for it.

You should know more about this remarkable improvement to the home. Ten minutes reading will give you complete information. Ask your lumber dealer for the booklet, "House Comfort that Pays for Itself"—together with a sample of BALSAM-WOOL. Or write us for the booklet and sample.

Balaban & Katz Theatres

Entertain the equivalent of
one-sixth of America's
population annually

Seating 18,000,000 people annually in five theatres—comfortably without confusion—without offense to anyone—is admittedly an undertaking of unusual proportions. We think we have reduced it to systematic accuracy.

It requires an organization of well educated and highly trained ushers, one stationed at every necessary point—at every aisle—on every landing—at every balcony and mezzanine floor entrance. Every usher observes the number of people who leave his section, as well as those who enter it, and he knows the number of available seats.

By a system of quiet and unobtrusive signals he conveys this definite information to the main point of entrance. So that you don't have to blunder from aisle to aisle or from one floor to another. You are spared the inconvenience and embarrassing uncertainty.

The seating of these millions moves with the smoothness of clockwork and as though controlled by unseen hands. Patrons are seated in the order of their arrival. When an usher directs you to a certain section, he knows beyond question that there are vacant seats at that point. There is no guess work about it. He is not arbitrary—he exercises no preferences—he is not acting on his own volition.

This system is in use in every Balaban & Katz theatre, and it is profoundly gratifying to know that we serve the equivalent of one-sixth of the total population of the United States annually with ease and dispatch.

The Gray Shop

For Women Who Require the Larger Sizes

Every new mode has representation here in assortments which present the outstanding features adapted with a slenderization of line which makes Gray Shop apparel so successful.

Brocaded Crepe Frocks at \$85 Are Banded with Flying Squirrel

This soft fur and lovely fabric are a charming combination, and lend themselves particularly well to the lengthening line of the tunic, which is a smart feature of this frock.

Then there's a telling touch in Georgette crepe of contrasting color

The Georgette crepe faces the graceful flowing sleeves. It is the only and most effective note of color on frocks of brown or black. Sketched, \$85.

Other New Frocks in the Larger Sizes

There are wool frocks in the favored coat style, tailored, very smart. Dinner frocks, beautifully beaded, are of supple chiffon velvet.

Ninth Floor, Use North Elevator.

The Shoppers' Advisory Service Most Helpful in Matters of Apparel

The object of this service is to assist in the selection of wearing apparel best suited to "type" and varied requirements. The expert assistance and suggestion available here, sometimes necessitating only the simplest change, may often be the means of creating a smart and charming appearance.

Ninth Floor, North.

Smart New Separate Skirts, \$6.50

Specially Priced in a Timely Selling

This selling just at the beginning of the season is most important. It brings an opportunity both for uncommonly delightful selection of an almost necessary item of the wardrobe and for substantial saving.

Of Camel's Hair Mixture

Plaided or Plain

In Wrap-around Style

The skirts have that trim, well-cut look that comes only with excellent tailoring, and which is always associated with the better quality of fabric, such as is in these.

Clever details as to pocket and fastening accent the smart style of these skirts. Sketched, \$6.50.

Notable Among the New Skirts Are Skirts of Satin or Velvet Often Draped, as Is New This Season.

"ZAZA."

Produced by Paramount.
Directed by Allan Dwan.
Presented at McVickers' theater.

THE CAST.

Zaza.....	Gloria Swanson
Bernard Dufrane.....	H. B. Warner
Duke de Brissac.....	Ferdinand Gottschalk
Aunt Rosa.....	Lucille La Verne
Fiorianne.....	Mary Thurman
Rigault.....	Riley Hatch

By Max Tine.
Good morning!
Had Gladia Swanson not apparently smothered the blackberry jam-pot on her mouth; did Mr. H. B. Warner not apparently have a little wooden dummy hanging from his neck; had the cast been allowed a few rays more of the spotlight; had the picture more genuine "atmosphere" (page Mr. von Stroheim! Non, non, he comes too thickly; why perhaps the film would have been better if it had continued down through the years as it comes through the medium of play and song.) As it stands, however, you are forever wanting to "wash the beautiful Gladia's black line." You yearn to build a bridge between the two.

You laugh, perhaps, at the subtleties of many of which are worth a laugh. You leave the theater still wanting to wash Gladia Swanson; wake up Mr. Warner, and if you had to sit through it, commit a classy murder on the man who insisted on giving you an "eccentric version" of "Ten-Ten-Tennessee." But you were too nervous, and O, heaven, who was there among the vast crowd, the course of people do you see such a deed?

Miss Swanson's interpretation of "Zaza" is not so bad. She makes her heroine a gamine. Flashy, ill-bred creature, who is not a little bit convincing suggests—perhaps wantonness. With the leading man acting so dumb—perhaps there was a reason that she did not like little Louise-Catherine. But she is a little bit convincing in her convincing little wild-pet wild cat drive.

This tough young person, you will remember, conceals the grand passion of her life for a gentleman who she learns later has a wife and child. So great is her love that she renounces him—after having unexpectedly met the family and been melted by her treatment in his home.

CLOSEUPS

Lillian Rich, who plays the feminine rôle in "The Love Master," the latest picture featuring Strongheart, is said to be as proficient as any man in driving a dog team with a sleigh. Took lots of practice, though, and they tell me it was weeks and weeks before she could successfully accomplish the feat.

Speaking of Strongheart—Just found out he's traveling under a false name. His real name is Eric Corning. The papa's name is Norez Von der Kriminalpolizei. (WOW)

Mr. Schulberg, who operates Preferred pictures, announces that Kenneth Harlan has graduated from leading man to star.

Shades of Mrs. Leslie Carter! (She really does deserve something, though, for the angelic behavior that succeeds the years of just the opposite.)

You who have seen the play and heard the opera will doubtless be puzzled by a number of things, such as the swing episode, in the cinema version. I think, however, that you will find no fault with the photography. Also, if you are, right fans, there are some pulling matches that may amuse you.

See you tomorrow!

The Question.
Is the automatic traffic control system on Michigan avenue a success?

Where Asked.
Randolph street and Michigan avenue

The Answers.

Thomas J. Coughlin, south par
policeman. During the
nearrush hours the sys-
tem may work. I am
doubtful about its suc-
cess during the rush
period, however. It
difficultly will be when
the link bridge is
raised. The line of traf-
fic will extend back so far the sign
system will be blocked.

Mrs. H. M. Blumberg, 630 Waveland
avenue, housewife.
Yes, I think it will be
a tremendous success.
I have no idea how
much safer it is for
woman to cross the
avenue with the new
system working. I
all of us have cars, you
know. It's about time
the people who have to walk.

H. R. Richardson, street, Evanston, salesman—I don't think it is going to be a success. Michigan avenue is not wide enough. The turning lanes and the parking of cars at the curb leave only space for two cars abreast for through traffic. This is not enough keep traffic moving.

Mrs. I. E. Bloch, 6211 Vernon ave., motorist—I am in favor of the new system. One can't possibly get confused as one does with the old whistle system. It gives the pedestrian and the cross traffic a better chance. The lights are right there in front of you; no noise to keep you from getting the signal.

—I think it will prove itself to be a great success, both from the standpoint of the motorist and the pedestrian. It will prevent the constant attempts to jockey for position. The white lined turning lanes will prevent that nuisance, at least.

**Brings Blue Pills That
Restored Girlish Lines.**

New York, Sept. 23.—[Special.]—Mary Garden today returned from Europe on the Olympic, wearing a brown gown with cubist dots and openly boasting of her slenderness. She appeared thinner than when she sailed a few months ago and startled friends who met her at the pier with the announcement that "when she retires from opera singing" she will hang out a shingle reading something like this: "Mary Garden, doctor of beauty, how to chase away fat; how to keep thin."

Miss Garden revealed her anti-fat

cret only to slight extent. She is saving the full revelation for that time when she expects to be in New York, how to reward "facts. All she said for the benefit of cashman is just this:

—

"Little light blue pills made thin. These pills are my own invention. They are genuine. They are effective. As soon as I retire from singing, which is a hazardous life, I shall make my fortune out of these pills, as all American women sooner or later want to reduce."

As for retiring from the stage, Miss Garden had little to say. She was also vague concerning her probable connection with the Grand Opera company this season. She asked eagerly: "Who is backing the Chicago opera now?" But offered no comment. She admitted she had not heard from the Chicago organization since going to Europe.

She said that before sailing it had been suggested by the Chicago Opera company that she learn the rôle of Zaza.

"But I couldn't learn the rôle; it's impossible," she said. "I have studied it, but I can't get it into my head, and surely when I can't get an opera into my head it isn't good art."

Miss Garden said she will give a series of concerts in the middle west and then go to California, but beyond this her plans are chaotic. She talked glibly to interviewers of fashions, of politics, of presidents, and things in general.

"It's a dead world," she said in greeting reporters. "Nothing new save silver and gold gowns and I have a number of each."

BY SHEPARD BUTLER.
The second act of "The Kiss of Death," O'Reilly, was just young when I was in the Grand Opera House at 11 last night but evidence was not lacking that Cohan's nearest ally with money registered a severe response.

An impetuous audience had been aroused to cheer and a storm of hand clapping that, at one point threatened to the things up in an inextinguishable blaze. The cause of this, a particularly vicious morsel of dance by Miss Emma Haig, had been safely passed after good-natured content between the applauders and an adamant stage manager who wouldn't permit an encore.

Other lively incidents had crowded on another in feet succession; first, the orchestra had been ordered to interrupt the proceedings, and at the close of Act I, everybody yelped for Cohan, who didn't come.

It was rather a riotous evening, as I am told that after the final curtain fell, the audience, in their seats, until the author made his reluctant appearance and duly delivered a speech.

Kathlene Martyn to Be Ziegfeld Star

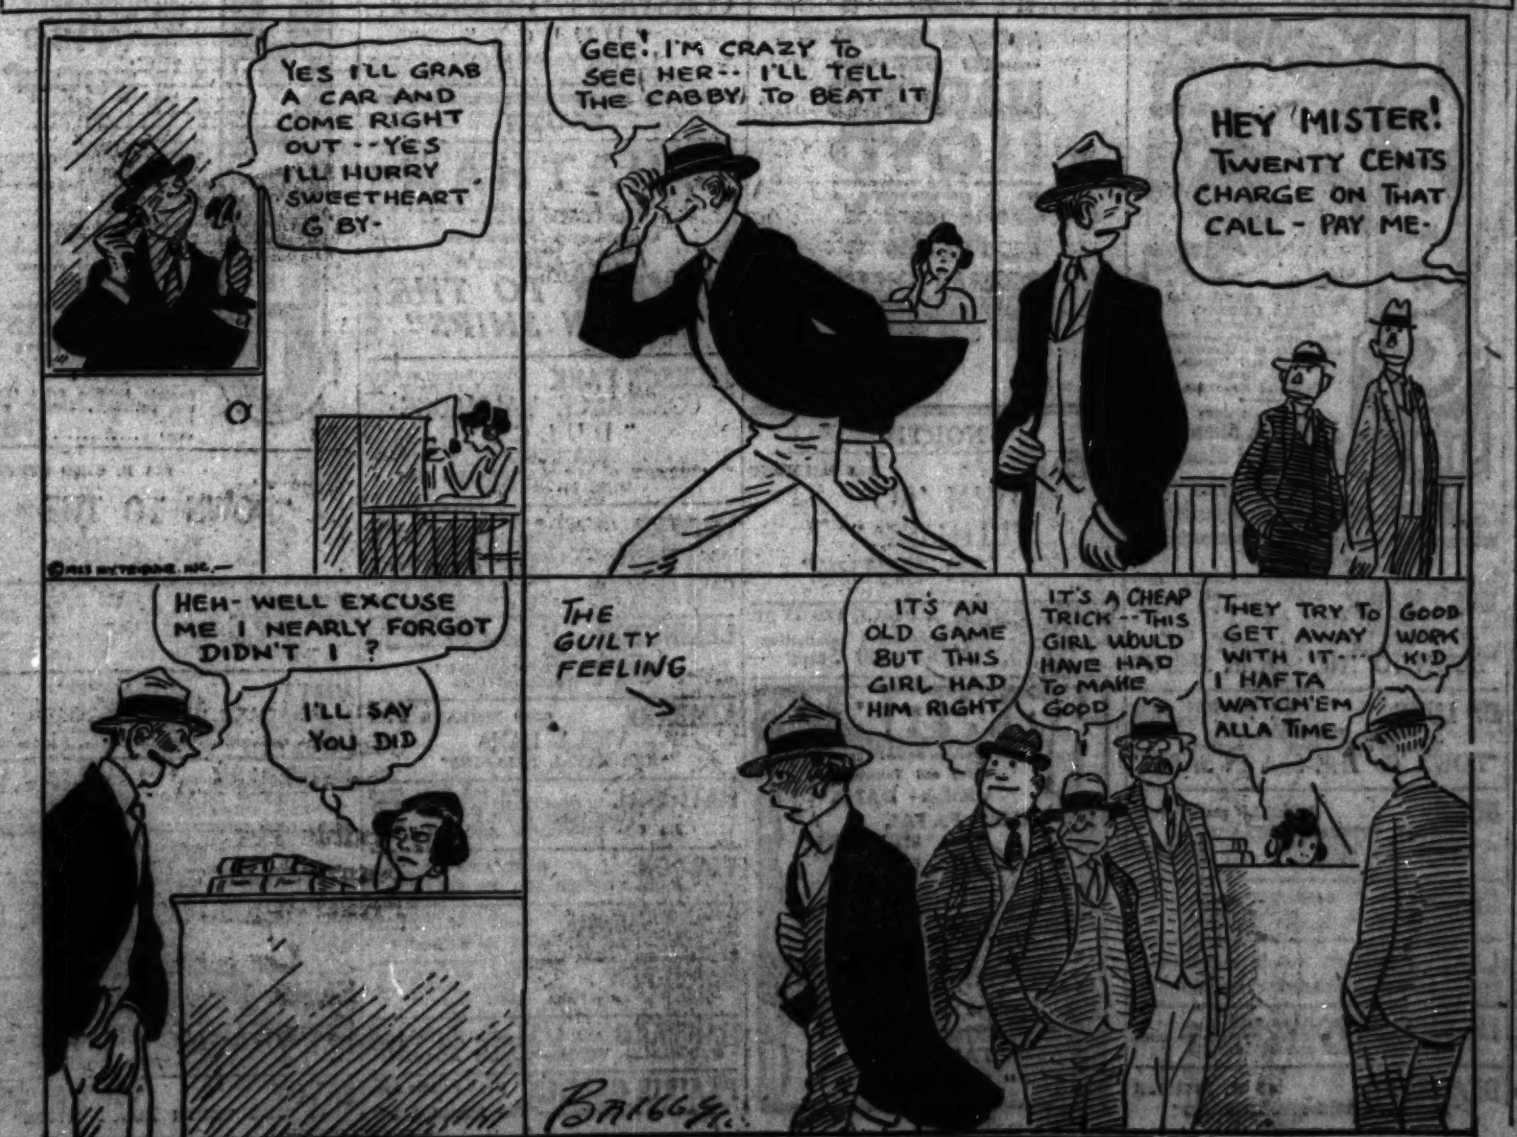

New York, Sept. 25.—[Special.] Florens Ziegfeld acquired another star today in the person of Kathlene McIntyn, who is playing her former role Rosie in "Sally" at the New Amsterdam theater. Mr. Ziegfeld has placed her under a three year contract, whereby she will continue with Marilyn Miller and Leon Errol in that musical comedy during its run here and

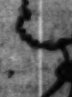

Ernest Glendinning has joined Irene Bordoni and her company in "Little Blue Bird" at the Lyceum theatre. He replaces Bruce McEas, who has been forced to withdraw to go on another tour with Ina Claire in "The Awful Truth."

Olivia Wyndham joined one of the eastern companies of "The Fool" last night in Hartford. She replaced Dorothy Spheeris, who has been transferred to the Chicago troupe, which is headed by Alexander Carlisle.

FROM MAKER TO WEARER

Price Speaks from the
Regal Platform

This new one strap slipper, with the open
lattice work collar, is fashion's favorite for fall.
It is made in a soft suede finished brown
calf skin, trimmed with brown kid, or if you
prefer, gun metal calf with patent leather.

Our One Price Policy makes a strong
appeal to the keen woman shopper, who likes
to know she can select any style in the store
for the same price she saw in the window.

The Regal Platform simplifies selling and
shopping because it tells the whole story.

Big Sale of RENEWED Franklin Cars

A RENEWED FRANKLIN IS BETTER THAN A NEW CAR WITHIN 100 MILES OF ITS PRICE.

American Roads Are Not Race Tracks

leader, a car which does not ask you to stop on a rough road. A car which does not rattle and bump when it strikes a rut. A car which will travel round at 30 miles an hour where other cars beg you to stop at 20.

After such a car and you have a sense of the way the Franklin will take you, you will find that such a car is not only a pleasure to drive but a necessity. It will not wear out, it will not rust, it will not break down, it will not be a burden on your pocket.

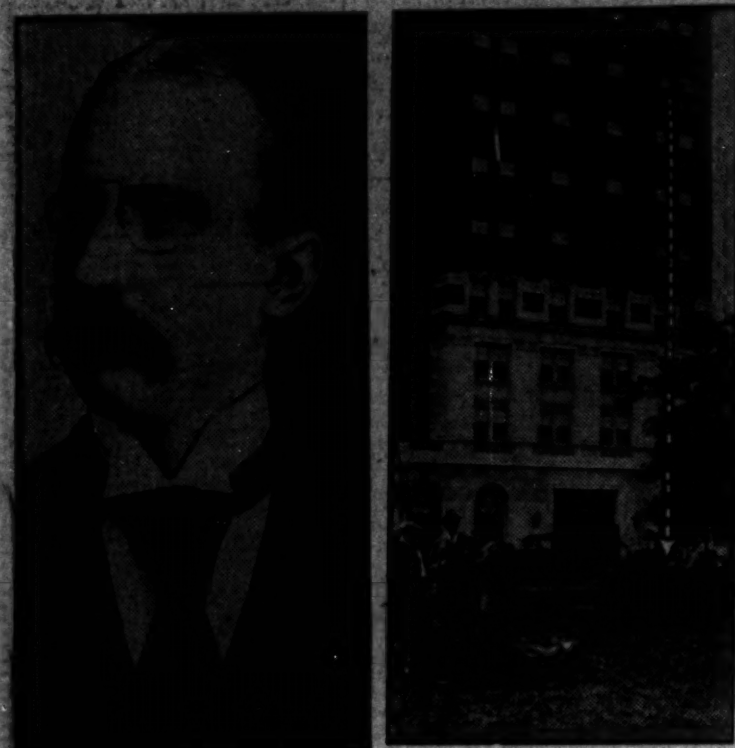

American roads are not race tracks. They are rough, they are uneven, they are full of holes. A car which can take such a road is a car which is a necessity. It is a car which will take you to your destination without a single stop. It is a car which will take you to your destination without a single stop. It is a car which will take you to your destination without a single stop.

Jail Loses Miller's Tongue. Miller, the husband, repeatedly tried to produce her, but Tuesday learned she had fled to New York. Her arrest and orders to her in New York were issued by Wharton. Last night Miller had lost his silence. "I'll tell the truth now—I don't know more of that jail," he said. "I called Nellie at home lots of times and had her do a lot of stuff for me. I don't know what—but I had to pay of dough for it. Stokes kept a he'd pay her back when she came New York. "They kept wanting her to affidavits, but I knew there was frame-up and begged her not. She told me she couldn't recover any of the pictures of Mrs. Miller as the woman she saw in New York. But finally she signed the papers. Two Arrests Made Plot Inquiry.

The "Stokes scandal" investigation suddenly reached a climax yesterday when the state's attorney's office revealed that for twenty-four hours had secretly held one witness caused arrest of another in New York and their produced a veteran Chicago underworld past to tell hand story of alleged attempt agents of W. E. D. Stokes, New millionaire, to defame the character of his wife, formerly Helen Elwood Stokes. At the same time the police department was brought into the inquiry. It issued a general order for the arrest of Joe Brunner, named by Stokes as the "pay off man," who supposedly perjured affidavits from numerous underworld habitués that had seen Mrs. Stokes in disreputable houses and compromising situations.

Stokes Escorts Woman. Howard Miller, Negro, was held in jail, and his wife, Nellie Miller, was the woman taken into custody in New York as she returned after fleeing from Chicago. Stokes' himself. Both were released after making sworn statements, carrying Mrs. Miller's suit case, left the New York court building. Mrs. Miller had made an affidavit that she served meals to Mrs. Stokes in the apartment of Edgar T. Wharton in New York. For ten days, Wharton, assistant state's attorney, and his investigators have sought to point out that on the date named Mrs. Stokes was ill in bed and to seek what Mr. Wharton called "the truth about that affidavit."

Jail Loses Miller's Tongue. Miller, the husband, repeatedly tried to produce her, but Tuesday learned she had fled to New York. Her arrest and orders to her in New York were issued by Wharton. Last night Miller had lost his silence. "I'll tell the truth now—I don't know more of that jail," he said. "I called Nellie at home lots of times and had her do a lot of stuff for me. I don't know what—but I had to pay of dough for it. Stokes kept a he'd pay her back when she came New York. "They kept wanting her to affidavits, but I knew there was frame-up and begged her not.
